INTERPLAK LTDA. has solid experience delivering fast solutions to the major challenges of large mining companies, among other industrial sectors in the country.

For our company, strictly meeting the needs of all our interested parties is a fundamental commitment. We are firmly committed to full compliance with all legal regulations applicable to our operations, in order to be a profitable organization that is sustainable over time, and to pursue strategies that enable expansion into new markets and continued growth in what we do.

A fundamental part of our commitment is to take all necessary actions to achieve ongoing management tools and continual improvement, and to increase our company's profitability and long-term sustainability.

We have highly qualified and experienced professionals who perform successfully in every area of the company. Our team is committed to an essential principle: striving for excellence in their work.

INTERPLAK LTDA. ensures that this policy is communicated, understood and made available to all its interested parties.
